

## CULTURE & WINE IN THE ALSACE REGION

### 5 DAYS / 4 NIGHTS

Come and discover one of the most fascinating regions of France through one of our exclusive regional tours. Alsace, unlike the other French Regions, abounds in both French and German influences. The majority of the population speaks French with a decided German accent, the cuisine is an able blend of French and German cooking, many of the towns of the region have German names and the village architecture delights in a pronounced Germanic influence.

**A visit to Alsace region is always a delightful experience.**

This very small group or private tour has been designed to make guests discover the history, culture, food and wines through carefully chosen visits that combine the most significant sights to off the beaten path locations that only a very small group tour will permit.

*All our tours are private and depart daily. They can be fully customised, lengthened or shortened according to the number of participants and to suit individual interests and schedules.*

## DAY 4 COLMAR VISIT / EGUISHHEIM / VOSGES MOUNTAIN SCENIC DRIVE

Breakfast at your hotel

In the morning depart for **Colmar**. Described by Frommer's as "one of the most attractive towns in Alsace," the town is renowned for its well preserved historic center. Follow your guide on a 2 hour private guided walking tour. Your tour will certainly lead you to the "Maison des Tetes", an outstanding German Renaissance building and to the Little Venice neighborhood where gorgeous half-timbered houses are lined along the Lauch River.

After the visit and some free time, reach the small village of **Eguisheim**. Surrounded by vineyards, nestling in a fold of green hills, Eguisheim is a medieval village whose narrow, concentric streets highlight the architectural merits of its half-timbered houses, lovingly decorated with flowers. Finally, follow the **Vosges scenic ridge route** that forms part of the boundary between the Alsace and Lorraine regions of France. *In 1871, Alsace was ceded to Germany under the Treaty of Frankfurt, and thus the ridge formed the boundary between France and Germany. During the First World War, the French military decided to create a road to follow the ridge, thus allowing easier access to the valleys on both sides, enabling the faster movement of French troops.*
